WHO ARE MILLERS OILS?

Over 135 Years of British Expertise, Quality, and Performance

Since 1887, Millers Oils has been crafting premium oils and lubricants from our home in Brighouse, West Yorkshire. Just like the iconic MINI, we're proudly British, driven by innovation, and built on a legacy of excellence.

Garages rely on the quality and performance we deliver — from the latest models to classic, we have the solution.

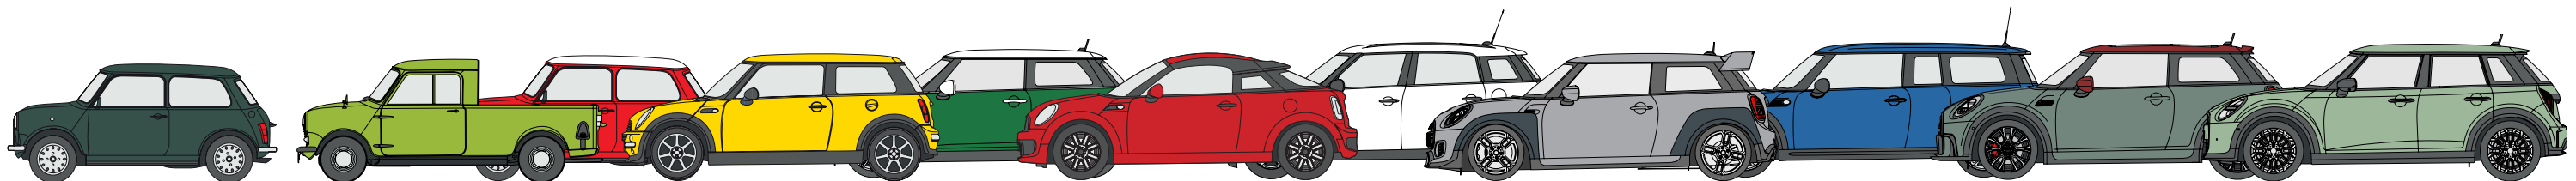

Much like the MINI, our products have stood the test of time. We're an independent company, and that gives us the freedom to create oils that are as versatile and unique as the cars we love.

From classic restorations to track-ready motorsport models, Millers Oils understands that every MINI has its own story—and we're here to help your garage write the next chapter.

As the official lubricant partner of the MINI CHALLENGE, we're proud to deliver race-proven performance, both on the track and the road. Every batch we produce is rigorously tested at our on-site R&D centre, ensuring exceptional quality and reliability.

British through and through, just like the MINI, Millers Oils is your trusted partner for the road ahead.

MINI and Millers Oils—two British classics, united by performance.

MILLERS OILS- MINI EXPERTS

At Millers Oils, we understand the MINI like no one else.

The MINI, a true British icon since 1959, has evolved through generations, from classic models to modern high-performance machines.

Maintaining this rich heritage and engineering excellence requires more than standard care—it demands the expertise that Millers Oils delivers.

We’ve spent years developing oils and lubricants tailored to every MINI. We specialise in providing garages with tailored oils and lubricants suitable for their needs.

Whether you’re restoring a beloved classic, tuning for the track, or providing everyday servicing, our products ensure optimal performance, reliability, and protection.

Trusted by motorsport professionals and classic enthusiasts alike, Millers Oils use advanced formulations to deliver enhanced engine efficiency, improved power, and long-lasting protection. With our range of high-quality oils, we ensure every MINI—whether on the road, track, or in restoration—performs at its best, providing reliability and performance for every model and era.

With a legacy of innovation and a commitment to excellence, Millers Oils is the go-to partner for garages that demand the best for their MINI customers.

ONE RANGE, MULTIPLE ENGINES

TRIDENT PROFESSIONAL RANGE Engine Oils for Unrivalled Vehicle Parc Coverage

The Trident Professional Range is all about simplifying your stockholding without compromising on quality. Designed to offer protection for a wide variety of MINI engines, including petrol, diesel, and hybrids, these oils make stocking the right products easier while still ensuring every MINI gets the best.

Product highlight:
Trident Professional C3 5w30

A versatile engine oil that offers top-level protection for petrol, diesel, and hybrid engines.

Features:

- Multi-application coverage for all engine types
- Fuel-efficient formulation

Benefits:

- Reduces the need for excessive stock
- Improves fuel efficiency while enhancing engine protection

Simplifying stock!

OEM APPROVED PROTECTION

XF PREMIUM RANGE Engine Oils You Can Trust for Modern MINIs

At Millers Oils, we take pride in providing OEM-approved oils that match the precision engineering of modern MINIs. Our XF Premium C2/C3 holds the stringent **BMW/MINI Longlife-04 (LL-04)** manufacturer approval, delivering the reliability you expect for BMW/MINI engines. Crafted with our advanced Dynamic Fluid Technology, it ensures ultimate protection, especially during cold starts and city driving.

Product highlight:
XF Premium C2/C3 5w30

A premium **OEM Approved** engine oil formulated using the latest technology for applications requiring C2 or C3 5w30 viscosities.

- Features:**
- **BMW/MINI Longlife-04 (LL-04) Approval**
 - Dynamic Fluid Technology
 - Distinct blend of highest quality base oil and additives

- Benefits:**
- Enhances fuel economy
 - Reduces engine wear
 - Long term performance

MAXIMISE POWER, MINIMISE WEAR

EE PERFORMANCE RANGE Engine Oils for High-Performance MINIs

For MINI enthusiasts who drive daily but live for track days, our EE Performance range is built to handle it all—everyday drives and high-performance thrills. Featuring NANODRIVE technology, these oils significantly reduce friction, enhancing both power output and engine protection.

Product highlight: EE Performance C3 5w30

A performance engine oil featuring NANODRIVE low friction technology for vehicles requiring a C3 5w30 specification.

Features:

- NANODRIVE technology for reduced friction and wear
- High thermal stability, perfect for extreme conditions
- “Track-day ready,” ensuring maximum performance while meeting manufacturer specifications

Benefits:

- Boosts power and fuel efficiency
- Extends the life of high-performance engines

Perfect for garages serving true MINI enthusiasts!

“As a racer, I rely on products that deliver peak performance and protect my engine under the toughest conditions. The EE Performance Range by Millers Oils enhances power and ensures the longevity of my engine. Whether on the track or on the road, these oils provide consistent reliability and efficiency. My MINI runs smoother and stronger, giving me the confidence to push harder every time.”

TRACK TESTED PROTECTION

MOTORSPORT RANGE

Superior Engine Oils for Motorsport MINIs

Millers Oils Motorsport Range has been our lifeblood for years, delivering proven performance across the motorsport industry. Designed for extreme racing conditions, these oils offer exceptional protection, power, and reliability.

Product highlight:

CFS 5w40 NT+

Competition fully synthetic NANODRIVE triple ester engine oil

Features:

- Second generation NANODRIVE technology for reduced friction and wear
- Excellent high-temperature stability for prolonged performance
- Suitable for both turbocharged and naturally aspirated engines

Benefits:

- Enhances engine protection during high-load, high-rev operations
- Optimised for endurance racing and track use
- Provides consistent power delivery under extreme conditions

Race leading lubricants!

EVERY **LAP**

EVERY **RACE**

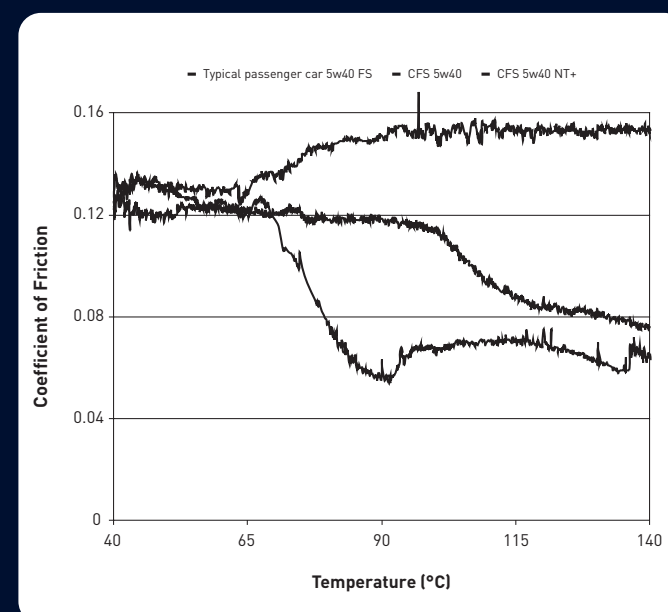

EVERY **TRACK**

EVERY **MINI**

NANODRIVE is the award-winning Millers Oils motorsport brand that incorporates advanced nanoparticle technology for high performance applications, where stress on components is at its limit.

In engine and gear oils, NANODRIVE technology combines advanced nanoparticles with triple ester chemistry to greatly reduce friction, protect against wear and maximise power. In suspension fluids, the advanced nanoparticles reduce friction for a consistently smooth operation.

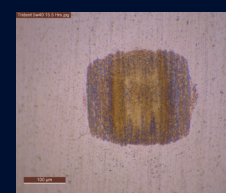

Over **53%** reduction in coefficient of friction

Coefficient of friction: measurement of friction between two surfaces

CFS 5w40, CFS 5w40 NT+ and a typical 5w40 passenger car engine oil were tested on the HFRR at temperatures between 40°C and 140°C, with a ramp rate of 1°C per minute, and a contact pressure of 833kPa. At 100°C, the normal operating temperature of an engine, CFS 5w40 reduces the coefficient of friction by 27%, and CFS NT+ reduces the coefficient of friction by over 53% compared to the typical 5w40 oil.

48% reduction in wear scar

Without NANODRIVE
Typical passenger car
5w40:
54,100µm²

With NANODRIVE
CFS 5w40 NT+:
28,260µm²

Wear scar: area of material removed by metal to metal contact

CFS 5w40 NT+ and a typical 5w40 passenger car engine oil were tested on the HFRR with a contact pressure of 833kPa. The results show that the CFS 5w40 NT+ offers over a 48% reduction in wear scar area over the typical passenger car product.

OFFICIAL LUBRICANTS OF THE MINI CHALLENGE

CHALLENGER BY MILLERS OILS

In 2024, Millers Oils proudly partnered with the MINI CHALLENGE as Official Lubricants Partner to develop the Challenger Range—a high-performance line of lubricants crafted specifically for track-ready MINIs. This range is designed to withstand the extreme demands of motorsport, offering superior engine protection, reduced friction, and maximum power output. Whether preparing for race day or fine-tuning performance, the Challenger Range ensures that every MINI on the track performs at its peak, delivering race-winning reliability and performance.

ULTIMATE PROTECTION FOR CLASSIC MINIS

CLASSIC RANGE

Engine Oils for Timeless Performance

Classic MINIs are a true British treasure. Millers Oils understand that they deserve oils that preserve their heritage while keeping their engines in top condition. Our specialist MINI Classic Oil has been specifically formulated to maintain that delicate balance of protection and performance for older engines, ensuring that whether your MINI is a daily driver or a treasured collectible, it runs as smoothly as ever.

Product highlight:

Classic MINI Oil 20w50

High-performance 20w50 mineral oil specifically crafted for classic MINI engines with combined gearboxes, ensuring optimal lubrication.

Features:

- Enhances gear change smoothness, reducing wear on crucial components like bearings and idler gears
- Fortified with ZDDP (zinc/phosphorus) to safeguard against wear in optimum high-stress environments
- Exceeds API SF and GL4 standards for comprehensive protection

Benefits:

- Delivers superior engine and gearbox protection, essential for maintaining the longevity of classic MINIs
- Prolongs engine life by providing top-tier protection against wear and tear, keeping classic MINIs running smoothly for years to come
- Improves driving experience with smoother gear changes and reduced friction, ensuring a refined and reliable ride for classic MINI enthusiasts

Generations of superior quality

"We've been using Millers Oils in our classic racing MINI for years, and the performance has been nothing short of exceptional. Whether it's engine protection or gear reliability, Millers has us covered on every race day."

EXTRA PROTECTION

TREATMENTS

Diesel Power ECOMAX – Multi-Shot

A diesel fuel treatment for enhanced combustion efficiency and engine cleanliness.

- Boosts diesel engine performance, economy, and cleanliness with a cetane increase of up to 4
- Enhances power and fuel efficiency while lowering emissions
- Lubricates fuel system components and maintains emission control systems

Petrol Power ECOMAX – Multi-Shot

A petrol fuel treatment for enhanced combustion efficiency and engine cleanliness.

- Optimises petrol engine efficiency by raising octane levels by up to 2 points
- Cleans injectors and reduces harmful emissions
- Protects fuel systems from ethanol corrosion

Tank Safe

Fuel tank additive to prevent water contamination and fuel deterioration.

- Protects against microbial growth and fuel degradation
- Safe for long-term storage in various fuel types

CVL (Competition Valve Lubricant)

Ideal for racing engines, boosting power and protecting valve seats.

- Raises octane for improved performance
- Offers additional protection for non-hardened valve seats

CVL Extra

An advanced version of CVL for extreme motorsport performance.

- Increases octane and provides superior protection for high-performance engines
- Protects against valve seat wear in intense conditions

OIL SAMPLING KITS

PRECISION IN EVERY DROP

At Millers Oils, we believe in the power of proactive maintenance. Our Oil Sampling Kits are designed to provide garages with invaluable insights into the condition of their customers' engines. By regularly analysing oil samples, garages can detect potential issues before they escalate, ensuring optimal performance and longevity for every MINI.

Each kit includes an easy-to-use sampling bottle and clear instructions, allowing for a straightforward collection process. The results are analysed by our expert team, providing detailed reports that highlight the health of the engine and recommend necessary actions. You can offer your customers peace of mind, knowing that their engines are protected and performing at their best.

WHICH OIL?

Make sure you're using the right oil for every job with Millers Oils easy to use **WHICH OIL?** service. Just enter the vehicle's registration number or select the make and model, and the oil selector will quickly find the correct oil for you.

MARKETING SUPPORT

Targeted marketing is crucial for driving sales and building brand visibility, especially for specialist MINI garages like yours. That’s why, as a Millers Oils stockist, you’ll gain access to an exciting range of tailored marketing resources designed to set your business apart.

From eye-catching bespoke signage to branded merchandise displays, we’ll help you create a professional and inviting space for your customers. But we offer much more than just physical materials.

As a valued stockist, your garage will be proudly featured on the official Millers Oils website, putting your business on the map for MINI owners searching for trusted service providers. In addition, our exclusive content portal gives you access to an extensive media library, complete with high-quality packshots, technical literature, promotional materials, and ready-to-use social media content to enhance your digital presence. Plus, you’ll receive print advertising support in leading automotive magazines to further elevate your visibility.

By choosing Millers Oils, you’re partnering with a business dedicated to your success. We provide the marketing tools you need to attract new customers, grow your brand, and increase profitability. Join us today and experience the premium support that makes Millers Oils the ideal partner for MINI specialist garages.
